I see it now and realize I had already accepted. Thanks for the wake-up call.

Thanks Ken, I'm all set with the OneDrive access, some guidance on folder structure and file name convention would be useful so that everything CPS uploads is easily located by EPA.

Many Thanks

-Nick

Nick – do you still need any guidance on the One Drive submittal process or are you good to go at this point?

I don't think anyone still has the link, if you could provide that it would be great.

Thanks again

Okay, yes, that is what I thought.

You guys already have a CBI protected OneDrive folder that has been set up. We currently have some site characterization documents that you all have submitted. Do you not have the link to it anymore?

Hey Nick,

Was CapturePoint going by a different name at some point?

Hi Ian, I was curious if you would have some time before Thursday to meet with Krishnan and I to discuss how CPS can best manage submissions with respect to confidential business items and the GSDT. And how we can get connected to an EPA administered SharePoint folder for Region 6 Class VI permit application documents.

Let me know if this week works for you and when is a good time.

Many thanks

Nick
